prepare your students for takeoff

Relevant and accessible skills to support students through their academic career

SAGE skills student success
Essential skills for academic success and beyond

**SAGE Skills: Student Success** empowers students to develop and practice the skills needed to thrive at college or university.

This new interactive digital resource features the work of a diverse set of academic experts to help undergraduates achieve academic and personal success during their time in higher education and beyond.

Supporting a wide range of disciplines, **SAGE Skills: Student Success** offers engaging content in a flexible, student-guided learning journey across ten multimedia modules. It builds foundational skills that will help undergraduate students:

- Become better critical thinkers, researchers, and writers
- Identify their own biases and enhance intercultural awareness
- Collaborate successfully with others
- Become more critical consumers of information
- Find and use data effectively in academic projects
- Study and communicate effectively
- Adjust to the emotional demands of a new environment
- Understand how to apply academic skills to the workplace
Discover the SAGE difference

SAGE brings unparalleled experience in teaching, learning, and research together with an experienced team of academic editors and contributors. These distinguished experts selected skills and topics they viewed as most relevant to support the many stages of a student’s successful path to graduation.

Our strong emphasis on diverse, global content and commitment to produce high quality educational material is at the core of this highly practical resource for the success of today’s student.

SAGE Skills: Student Success offers a self-guided learning journey with over 90 skills across ten comprehensive modules.

“Being a successful student is about completing your work to the best standard you can, while effectively maintaining a focus on your health and wellbeing, time management, money, studies, and personal life.”

– Helen Coleman, Editor-in-Chief, Study Skills and Assignments Module
